

CES BLUE

A Smarter Back Office,
Backed by Energy Experts

**Customized
Energy Solutions**

Analyze · Simplify · Implement

CES BLUE is a scalable, hosted SaaS platform built to simplify and accelerate retail energy operations—from transactions to billing. It combines advanced automation, AI-driven tools, and energy market expertise to deliver seamless EDI management, billing, analytics, and AR tracking in one modern back-office system. With expert operations support and next-generation technology, CES BLUE enables energy retailers to grow profitably while maintaining accuracy, compliance, and customer satisfaction.

WHY CES?

CES combines deep energy expertise with SaaS innovation, helping retailers and aggregators reduce operational complexity and cost. Supported by experienced energy professionals, CES BLUE provides a best-in-class platform for customer data, billing, analytics, and settlements—ensuring your business is ready for growth, scalability, and evolving market demands.

Step into the future of energy management with CES BLUE — harness advanced technology to cut costs and elevate profitability. Write to us or scan the QR code to discover how CES BLUE can transform your retail energy operations.

KEY FEATURES CAPABILITIES

- Best-in-class SaaS for Transactions (EDI) and Billing Management
